September 2026

Dear Parents and Carers,

This year, students will be given access to the **Bromcom Student Portal**. This platform provides students with easy access to a range of important information, including homework and learning resources, class timetables, behaviour points, exam timetables and house points.

The Student Portal complements the information already available through the Parent Portal/MyChildAtSchool app. In addition, it enables students to view their homework tasks and monitor their progress towards completion, helping them to take greater ownership of their learning.

All students have been sent an invitation email to their school email account. Please encourage your child to open this email and follow the instructions to complete the registration process. A step-by-step guide, including screenshots of each stage, is attached to this email to support them with signing up.

We also recommend that students download the **Bromcom Student App**, as many users find it more convenient and user-friendly than the web-based version. Details of how to do this are included in the attached guide.

If your child participated in the trial before the summer holiday, they will not receive a new invitation email, as they have already completed the registration process and should already have access to the Student Portal.

If your child experiences any difficulties signing up, there is no need to contact the school. Support sessions will be provided during Core Time over the coming weeks to help students get set up. These sessions will be organised through their form tutor.

Thank you for your support.

Yours faithfully

Mr D Moult

Associate Assistant Headteacher
