9th September 2026

Dear Parent/Carer,

Re-sale of revision guides for Year 11

We are again making revision guides available for students who missed out on the opportunity during Year 10. These are on offer at the **same price** as last year. **If your child has already purchased a revision guide in Year 10, and they still have it, there is no need to purchase another**. Please see a repeat of the information sent to Year 10 this year if you wish to know more:

We believe they are excellent companions for independent study and revision:

- they contain exam question practice, easily organised by topic.
- short quizzes for the student to self-quizzing or quizzing with a parent or friend.
- well-organised, essential detail in the content pages to reduce overloading with information.
- they are an alternative to screen-based or online revision.
- a fantastic 'one-stop shop' for progress exam preparation

Most students will need to have the combined science revision guide. If your child is in the triple science course, they will need to order the triple science revision guides.

Textbook	Amazon price	ParentPay price	Saving
Science GCSE Combined Science Revision Guide (2 GCSEs)	£13.49 *(Sept 2026 price)*	£9	**40% saving**
Science GCSE Triple Science Revision guides (three separate books) (3 GCSEs)	£17.97 *(Sept 2026 price)*	£12 total	**40% saving**

Revision guides are available for purchase **until closing Thursday 17th September.** After the deadline the order will be made, and students will receive their revision guides in their lessons.

These revision guides are the same as issued to Y11 for the last two years, so if your child has older siblings, you may choose to use the one you already have.

If you have any questions, please direct them to myself **t.pearson@eatonbank.ht.school** and I will be happy to reply. Students will most likely be shown these revision guides in lessons over the coming days.

With thanks,

Mr T Pearson

Assistant Curriculum Leader
